Interesting, useful, and weird frequencies

- * 5 Hz: Alleged sphincter resonance (mechanical)(not good)
- * 7 Hz: Mass aggregate frequency (can deaggregate matter), alleged to resonate and rupture organs at excessive intensity
- * 7.5 Hz: (?) Earth magnetic field frequency, useful theta (brain) waves frequency
- * 7.83 Hz: Earth resonance frequency
- * 13 Hz: Alleged sphincter resonance (mechanical)(not good)
- * 46.98 Hz (use with 62.64 and 70.47) Useful for weird effects
- * 62.64 Hz (use with 46.98 and 70.47) Useful for weird effects
- * 70.47 Hz (use with 46.98 and 62.64) Useful for weird effects
- * 305 Hz: Rife frequency to kill Lyme disease
- * 312 Hz: Rife frequency to kill Lyme disease
- * 345 Hz: Rife frequency to kill Lyme disease

- * 630 Hz: Keely Frequency (use with 620 and 12000)
- * 864 Hz: Main Rife frequency to kill Lyme disease
- * 2000 Hz: Commonly used Rife frequency
- * 2000 Hz (plus a small amount): Alleged to cure a cancer
- * 2025 Hz: Proton precession/water resonance
- * 3000 Hz: (approximate) Mentioned as a Rife frequency
- * 5000 Hz: Commonly used Rife frequency
- * 7270 Hz: Commonly used Rife frequency

- * 150-160 kHz: Magic window
- * 180 KHz: Ferromagnetism
- * 1.1-1.3 MHz: Magic window
- * 388 MHz: Alleged to cause damage/disruption of humans
- * 488 MHz: Same as 388 MHz, but I think it was a mistake, and 388 was meant
- * 1.057 GHz: Magic window
- * 2.450 GHz: Standard microwave oven frequency, but no resonance
- * Somewhere in the Infrared: Magic window
- * The life energy frequency (in the near ultraviolet): Magic window
